

Advanced Imaging

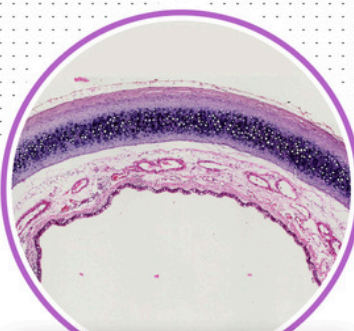

Made Simple

Albany Advanced Digital Imaging (AADI) helps research teams rapidly scan and digitize slides at up to 80x magnification—without the six-figure machinery cost.

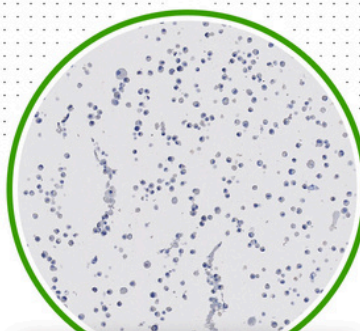

What we scan

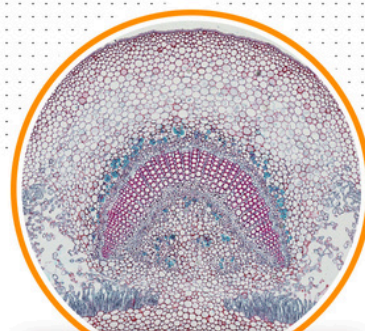

Insect

Mammalian

Microorganism

Plant

Services & Capabilities

- Magnification Range: 0.5x–80x
- Z-Stack for multiple focal planes
- Currently Brightfield imaging (Fluorescence coming soon)
- Single-stitched high-resolution image files delivered in minutes
- Partnership with Krackeler Scientific for streamlined ordering

Stains

- ▶ **H&E** (standard histology)
- ▶ **Gram** (bacterial differentiation)
- ▶ **DAB** (immunohistochemistry)
- ▶ **Trichrome** (connective tissue)
- ▶ **AFS** (acid-fast bacteria/fungal detection)
- + Other options available upon request

Order & Procurement Process

Request & Order:

Place order through Krackeler Scientific

Slide Delivery:

Local pickup (within Albany, NY area) or ship slides

Scanning:

Automated high-resolution scanning

Data Access:

Download via secure cloud or request physical media
