

LIMITED TIME OFFER

# Smarter Lab Choices. Bigger Savings.

Save on instruments, pipettes, and consumables with limited time offers available through June 30, 2026.

## Eppendorf Research® plus or Research® 3 neo

- » Both versions have an ergonomic, lightweight design for comfortable pipetting, a spring-loaded tip cone for easy, low-effort tip attachment and are autoclavable and built for long-term, reliable use
- » Research plus: Available in single- and multi-channel (8, 12, 16, 24-channel) formats
- » Research 3 neo: Has a volume lock to prevent accidental changes during pipetting, a gear-shift for fast or ultra-fine one-hand volume adjustments and a shorter reach and improved finger hook for enhanced ergonomics
- » **Buy either 4 of the Research plus or the Research 3 neo with a Carousel Stand for \$1,400**

## CellXpert® C170i

- » Precise temperature uniformity with fastest temperature and CO<sub>2</sub> recovery and lowest gas consumption
- » 180° C high-temperature sterilization procedure prevents contamination
- » GMP/cleanroom-compatible
- » Unlock extra value by purchasing a 5-year extended warranty at 50% off!
- » **Your price: \$7,999 single unit, \$16,999 double stack**

## Centrifuge 5425

- » Aerosol-tight Eppendorf QuickLock® lids for simple and safe handling with a rotor for 24 × 1.5/2.0 mL tubes
- » With speeds up to 21,300 × g catering to a broad range of samples
- » Small footprint designed for limited bench space
- » Whisper quiet with an average noise level of 45 dB(A), you won't even know it's there
- » **Save 24% and get a free box of either 1.5mL Protein or DNA LoBind® tubes**  
*LoBind material ensures optimized sample recovery for improved assay results*
